ABSTRACT

The purpose of this research are: (1) To identify the problems are faced by the students in comprehending reading of descriptive texts at the tenth grade of class. (2) To identify the problem occurs most frequently in comprehending reading descriptive texts at the tenth grade of class. The researcher used descriptive quantitative method design to do his research. The subject of this research was the students' at SMAN 2 Kotabaru. This test was conducted based on the text given by the researcher in 45 minutes. The reading test is formed in multiple choice with 4 choices (A, B, C, and D) and consists of 20 questions. The researcher used this method design because the researcher is going to analyze the students' problems in comprehending reading, these problems affect the level of reading ability of the students and the problem occurs most frequently in comprehending reading of descriptive text at tenth grade.
